FIRST CALL FOR PAPERS TO

MATHEMATICAL AND APPLIED GLOBAL OPTIMIZATION 2014 (MAGO), in the series GLOBAL OPTIMIZATION WORKSHOPS (GOW)

MALAGA, September 1-4

2014

Global Optimization studies theory, methods and applications of optimization techniques aimed at detecting a global optimum for difficult mathematical programming problems in which many local optima might exist.

Since 1985, a tradition of GOW workshops exists where senior researchers and PhD students meet in a one-stream session environment to discuss approaches, algorithms and challenging applications. A list of scientists that confirmed contribution can be found in http://www.hpca.ual.es/~MAGO14/

Location: Málaga, the centre of the Costa del Sol, Spain.

Abstract submission: all participants wishing to present a talk at the Workshop should send an extended abstract of 4 pages in LaTeX not later than March 15th

Paper submission: a special issue of JOGO is devoted to a selected number of papers

Workshop fees: €300 per participant includes lunches, coffee breaks, book of proceedings of the accepted contributions, conference diner and excursion.

Global schedule:
Today: Send a mail to confirm participation
March 15th, 2014: deadline extended abstract.
April 15th, 2014: Notification of acceptance
May 30th, 2014: Camera-ready manuscripts due
June 15th, 2014: Deadline for registration
August 31, 2014: reception in the centre of Málaga.
September 1-4, 2014: Workshop at Escuela Técnica Superior de Ingeniería Industrial Universidad de Málaga

Organisers
Leocadio G. Casado
Eligius M.T. Hendrix, University
Inmaculada García Fernández
